### About Dem Coons.

Last Monday's lot of niggers came in on a special train for the purpose of loading ties in the yard here. Several of the parties interested in the matter gathered about the train and some powder was held, the result being that the train pulled out in about an hour after it came in minus any ties, the colored brothers failing to get an opportunity to do the work. It is decidedly amusing to hear the comments of some of the ardent Republicans of this community on the question of "niggers in Doniphan." Some thirty or forty odd years ago a whole lot of people, evidently all Republicans on one side and all Democrats on the other, and this estimate is based on claims made since the disturbances occurred, had quite a time, for about four years, in fact, deciding whether the nigger should be as good as a white man, or remain in the condition and position that the Creator placed him in. The side that thought the nigger as good as a white man won out in the mix-up and by legislation of Republican congresses they were made the equal of the white man. Now some of our people refuse, decline, deny and are terribly opposed to the equality that no Democrat ever asked or tried to force upon the white man. The negro is a voter, is entitled to hold office, own property, pay taxes, and work and earn a living everywhere the American flag floats in this country—except possibly in Doniphan, and we don't believe we miss it very much when we say that those in this community most strongly opposed to the nigger are Republicans, at least we have never heard any Democrat of our acquaintance express one-half as rabid sentiments against the negro, as we have Republicans. In fact, in this community, if you want to make a Republican good and mad just say "nigger" too him, and it is like shaking a red rag at a bull, and in this we speak from experience, for we happened to speak favorably of the negro in the presence of a leading and well-known Republican of this county, upon one occasion, and we thought the man would have a fit in his rage and trade against the colored man and brother, and besides he had fought four years to make him free and the equal of the white man. In a great many communities, all over this broad land of ours, and especially where the Republican sentiment is in the majority, the negro is taken to their bosom, especially about election time, and in many other instances he is given office and is considered just as good as anybody. But here it is different.

## STATE HAPPENINGS.

### Harrington Witness Kille Himself.

Clayton—John M. Oellien, a former deputy sheriff in St. Louis county, took carbolic acid at his home at Maddonville, where he owned a saloon, and died before a physician could reach him. No cause could be assigned except that he had been drinking. He is said to have been subject to spells of despondency. Oellien was one of the chief witnesses against F. Seymour Barrington, convicted at Clayton of murdering James P. McCann. At the time of the murder he was motorman on the St. Louis & St. Charles line. His car carried Barrington and McCann to Bondia, and he talked to the men as they left the car. He also testified to hearing revolver shots and screams. On his return from St. Charles, Oellien told his wife that he wanted to lie down, and went to his room. Soon afterward Mrs. Oellien found her husband dying. Coroner Koch announced that death had been caused by acid self-administered. Oellien was 35 years old, and is survived by a widow and two children.

### Good Roads Meeting Postponed.

Jefferson City—Following the rendition of an opinion by the supreme court invalidating the legislative enactment which empowered county courts to make a levy of 15 cents on the \$100 assessed valuation, the act being declared unconstitutional because it exceeded Kansas City and St. Joseph, the county court of Boone county took steps looking to the securing of remedial legislation which would not retard or interrupt road work. The county court then sent out a circular letter to other like courts throughout the state inviting them to be represented at a meeting to be held in Columbia, May 5, at which the whole question of good roads was to be considered and discussed. This meeting has been postponed until May 15. There are assurances that a large number of the courts will be represented.

### The Knife "Bluffed" Papa.

Clark—Armed with a big knife, Cal Winn, a young farmer, marched into the Christian church at Renick, west of here, and broke up the services that were in progress. Winn was engaged to be married to Miss Annie Slaughter, daughter of H. A. Slaughter, a prominent coal dealer of this county, but objections on the part of the girl's parents prevented the marriage. The parents and daughter attended church at Renick, and when Winn learned this he at once went to the church and demanded the release of the girl. The father relinquished her, and she ran to the side of her lover. In a minute they were speeding to the minister's home, where they were married. The bride is only 15 years old. Warrants have been issued for the arrest of Winn for disturbing church services.

### Missouri Railroad Figures.
